Welcome Home Reentry Program**

**Welcome Home**

Serving the Imprisoned and Helping Them Transition Home

**@ the PreRelease Center  
11651 Nebel St. Rockville, MD**

- **The Welcome Home Reentry Program** provides mentoring opportunities to interested participants who are currently incarcerated and returning to the community within one year. Everyone needs a second chance, and rebuilding a life after incarceration can be complex and confounding.
- The program matches volunteer Mentors with men and women seeking a path toward success. Volunteer Mentors and Mentees meet once a week for an hour over the course of a year.
- Our goal is to help prevent returning citizens from falling back to old ways that led to incarceration by assisting them in discovering and following a path to employment, stable housing and other supportive services.
- We do this by creating a support network centered around trained volunteer Mentors, and staff who work closely with Mentees providing encouragement and resources.
- Clients are helped to make a successful transition back into the community with resources including:

- ★ Food Resources      Transportation Assistance      Clothing Assistance
- ★ Hygiene Kits      Referrals for Job Placement and Training
- ★ Referral to other Catholic Charities Services including Legal Services and Medical and Dental Clinics.
